

WHITE BURIES THE HATCHET

Emporia Editor Abandons the
Political War Path.

Places His Editorial Endorse-
ment on Governor Capper.

ON BASIS OF COMMON SENSE

The Administration Is Not Run
on Partisan Lines.

Jobs to Bull Moose and Praise
to Stand Patters.

"The truth is that few of Governor Capper's appointments have been political. He has run his administration on a basis of common sense, not on a partisan basis." William Allen White in Emporia Gazette.

That was the meat of the Emporia editor's comment on the appointment by the wage commission of Miss Lenna Brette as secretary. Since the appointment of Brette, the Emporia editor has been busy with the saving of a berth for Coddling, White has called upon the Progressives to witness that Governor Capper has risen above political alignments, given the Progressives the jobs and shown his independence.

It was because of this condition that a third of the Republican league recently came from the offices of J. S. Dean and George A. Clark. The threat didn't land many conservatives in office, but it resulted in an upheaval in the editorial trend of the Capper publications that was observed by every political reader in Kansas. Since that time the policy of passing the patronage to the Progressives has been unchained, but old line Republicans rub their hands joyously when they read Capper editorials pointing to the admirable traits of Senator Root, the learned remarks of Taft, and the shafts that were hurled to Roosevelt.

Thus the plan of harmony has been moulded in Kansas. The jobs and an editorial policy that is considerate and at times almost kindly toward conservative leaders. It isn't just the sound, practical, consistent policy that some of the leaders desired. For the conservatives it doesn't mean jobs with which to oil the wheels of organization. For the Progressives it doesn't exactly indicate a fearless, deep rooted conviction behind the appointments and a fighting spirit that makes crusaders. But each faction in turn is receiving something that can be termed recognition and thus real harmony is made possible—if not quite certain.

May Have Had a Tip.
A few weeks ago George A. Clark remarked in an interview that Governor Capper would soon appoint a real conservative to some minor office and point to his independence. Possibly Clark had an advance tip. If not, he was a wizard in doping political futures.

Only the other day the governor appointed W. H. Haskell election commissioner in Kansas City. It was urged that old line Republicans had been recognized by appointment to office. But it is not the real test. The servers in the conservative camp. They knew that Haskell had been appointed not as an act of independence, not as a recognition of the old crowd, not from a desire to divide the patronage. They knew that Haskell had been appointed to sidetrack his candidacy for the wardenship of the state prison.

Thus Haskell's local job is checked against the wardenship saved for Coddling—an organizer of the Progressive party in Kansas. Hadges appointee is pushed across the board and Bristow who fought and bled for the Progressives until the wind left their sails, is given a \$4,000 place. Joe Mercer, a Progressive through two state campaigns, goes back to the job he left when Stubbs left the governor's chair. Fred S. Jackson, who made a crusade for the Progressives in 1912 and defied the conservatives in the party council, is returned to a public job. Tod, another of the Progressive type, was given a job, looked it over, decided it was unprofitable and declined. Keene, who fought for all of the reform measures on the Progressive program, is an attaché of the state administration. Miss Lenna Brette, a Democrat, a Hodges appointee, a woman of unusual ability, is reappointed. From White's typewriter comes the editorial that will cheer the disappointed conservatives in every section of the state: "The truth is that few of Governor Capper's appointments have been political."

How to Treat Croup Externally

Rob Vick's "Vap-O-Rub" Salve well over the throat for a few minutes—then cover with a warm flannel cloth. Leave the covering loose around the neck so that the soothing medicated vapors arising may loosen the choking phlegm and ease the difficulty in breathing. One application at bedtime insures against a night attack. 25c, 50c, or \$1.00. At druggists.

VICK'S VAPORUB SALVE

ence Bradley, Frankfort, \$125; Patrick O'Sullivan, Delta, \$25.

ELMHURST NO. 2

Topeka Company Will Plat an Addition to Concordia.

The Elmhurst Investment company of Topeka has concluded a deal whereby the company comes into possession of a forty-acre tract adjacent to the town of Concordia. The ground will be platted as an addition to Concordia and lots will be sold by the company on a plan similar to that used in the Elmhurst subdivision in Topeka. The Concordia addition will also be known as Elmhurst. The consideration was \$12,000.

Work will be started by the last of September, and the company will employ expert landscape artists to prepare the land for use. Mr. Hinman, of Concordia, who sold the tract to the Topeka company, has signed a contract calling for the removal of all crops by September 27.

The place was once laid out for city lots and was known as Hinman's Addition, but the proposition was not pushed sufficiently to dispose of the property. The tract adjoins Willow avenue on the west of the town. The sale was brought about by the Concordia Real Estate company, N. B. Burge, president of the Elmhurst company, has been in Concordia arranging the deal.

HUNT FOR LOST CLERIC

Mountaineers, Spurred by \$500 Reward, Comb Snowy Passes.

Denver, Sept. 16.—Spurred by a reward of \$500, experienced mountaineers and United States forest rangers today continued their search of the Estes Park region for the Rev. Thornton R. Sampson, minister and tutor of Austin, who disappeared more than two weeks ago.

The reward was offered by Mrs. Sampson, who is in Denver. Heavy snows have fallen in the last few days over the rugged district where the minister is believed to have been lost and hope of finding him alive practically has been abandoned.

The search will be kept up, however.

LOOSE TEETH SORE GUMS (PYORRHEA)

I am a Dentist of 25 years Experience. I Have Perfected a Most Successful Home Treatment for Pyorrhea, the Terrible Tooth and Gum Disease and all its Symptoms.

Have found a very successful home treatment for that terrible disease called Pyorrhea or ligas disease of the gums. Most dentists tell their patients there is no cure for it, that there is no cure for loose teeth, bleeding, spougy, shrinking gums and dropping out of teeth; but many who have used my home treatment say there is. AND PROVE IT.

Don't have those teeth pulled. You may save every one of them—make them good, firm, healthy, sound teeth again.

Hundreds of patients say Dr. Willard's home treatment stops the teeth from being loose or wobbling and that it has done so in cases where the patient could almost pull his teeth out with his fingers, where the gums were soft and spongy, bleeding and shrinking away from the teeth. You may make these conditions positively and absolutely disappear and end your Pyorrhea. There is no pain, no fusing, no waste of time.

The letters I will send you from people in all parts of the country will tell you that the torture and expense of dentist's work, all its grinding, whirling, jamming and nerve-touching agony are gone forever. No more plates and bridges. They enjoy good teeth, good chewing and a good stomach once more. If you have any of the symptoms mentioned, then Pyorrhea, sometimes called ligas disease, is on the way. You are bound to lose your teeth and have to wear those awful false teeth. If you don't find a cure for it now, simply send your name and address on coupon below and I will tell you all about this dreadful disease and why my simple home treatment may save your teeth, without pain or expense of the dental chair.
